

RAJ R

Junior Software Engineer | Full Stack Developer

Chennai, Tamil Nadu | +91 87544 79944 | ashieeraj1901@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Junior Software Engineer with 3 years of total software development experience, including internships, and 2+ years of full-time experience building full-stack web applications. Experienced in React.js, JavaScript, TypeScript, Node.js, Python, REST APIs, SQL, and modern web development tools. Hands-on experience across frontend, backend, API development, database integration, debugging, and Agile team collaboration. Open to Software Engineer, Full Stack Developer, and Associate Software Engineer opportunities.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, C#, PHP, HTML5, CSS3, Bash/Shell Scripting

Frontend: React.js, Redux Toolkit, React Router, Context API, React Hooks, Tailwind CSS, Bootstrap, Material UI, Axios

Backend: Node.js, Express.js, Python, Flask, FastAPI, REST API Development, JWT Authentication, MVC, LangChain

Databases and Storage: MySQL, PostgreSQL, MongoDB, SQLite, Redis, Firebase, SQL Joins, Database Normalization

DevOps and Tools: Git, GitHub, GitHub Actions, Jenkins, Docker, Postman, VS Code, npm, pip, Linux CLI
Development Practices: Data Operations, JSON, HTTP Methods, API Testing, API Documentation, Agile/Scrum, Component-Based Architecture

Cloud Technologies: AWS (EC2,VPC, S3, IAM), Cloud Storage

Operating Systems: Linux (Ubuntu), WSL, Windows Server

Python Packages & Libraries: Pandas, NumPy, Deep Learning, TensorFlow, PyTorch, FFMPEG, NLP, OpenCV, SpaCy

Generative AI & LLM Technologies: Generative AI (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, LLM Fine-tuning (Basic Exposure), LangChain Pipelines, LlamaIndex, Document Question Answering

PROFESSIONAL EXPERIENCE

Junior Software Engineer | IATT Solutions | Jul 2025 - Present

- Develop and maintain full-stack web application features across frontend, backend, REST APIs, and database layers.
- Build and integrate APIs, implement application logic, and support end-to-end feature development and debugging.
- Work with databases and data-access components to support application functionality and troubleshoot data-related issues.
- Collaborate with team members and client stakeholders when clarifying requirements and implementing requested changes.
- Use Git-based development workflows and modern engineering tools to manage and maintain application code.

Junior Software Developer | Wisdom Infotech | Jun 2024 - Jun 2025

- Developed and maintained full-stack web features for internal tools and client projects using React.js, Node.js, and Python Flask.
- Built and integrated RESTful APIs for React frontends, including authentication, data validation, error handling, and API versioning.
- Wrote SQL queries and designed database schemas; improved query performance using indexes and JOIN operations in MySQL.
- Worked in an Agile team through sprint planning, daily stand-ups, code reviews, and retrospectives using Git-based workflows.
- Used Postman for API testing and documentation and maintained GitHub repositories with structured branching and clear commit messages.

Software Developer Intern | Wisdom Infotech | Dec 2023 - Jun 2024

- Contributed to full-stack web development using React.js, Node.js, Express.js, MySQL, and REST APIs.
- Implemented frontend-backend integrations, end-to-end data management, database operations, and application debugging under mentorship.
- Worked with Git and Postman while gaining hands-on experience in API design, relational data modelling, and web application development.

Web Developer Intern | Prostaff Infotech | Nov 2022 - Feb 2023

- Built and supported web application features as an intern, gaining practical experience in frontend development, backend integration, and database-driven applications. Strengthened fundamentals in REST APIs, relational database modelling, and frontend-backend integration through hands-on development work.

SELECTED PROJECTS

Employee Management System | *React.js, Node.js, Express.js, MySQL, REST API*

github.com/rajr-dev/employee-management-system

- Built a full-stack employee management application with role-based access control for Admin, HR, and Viewer users.
- Designed RESTful data management endpoints in Node.js and Express.js and implemented a normalized MySQL schema with foreign keys.
- Developed React functional components with Hooks and React Router for dashboard, employee list, and profile workflows.
- Integrated Axios for API communication and added loading states, error handling, and client-side form validation.

Enterprise Document Intelligence Platform (RAG) | *React.js, FastAPI, LangChain, LlamaIndex, PostgreSQL, AWS S3, Docker*

- Built a multi-tenant RAG platform using LangChain and LlamaIndex, enabling natural-language Q&A over internal documents with cited, source-linked answers.
- Designed a document ingestion and vector-embedding pipeline processing PDFs/DOCX at scale, served through FastAPI.
- Deployed on AWS EC2 with S3-backed document storage and JWT-secured multi-user workspaces.

Cloud-Native Multi-Tenant SaaS Platform | *React.js, FastAPI, PostgreSQL, Docker, Jenkins, AWS (EC2, S3, IAM)*

- Architected a multi-tenant SaaS application with isolated tenant data and role-based access control across Admin/Manager/User roles.
- Automated build, test, and deployment through a Jenkins CI/CD pipeline shipping containerized services to AWS EC2.
- Configured least-privilege IAM roles and S3 storage integration, with Redis-backed caching and session management.

Real-Time Computer Vision Analytics System | *OpenCV, PyTorch, TensorFlow, FFMPEG, FastAPI, MongoDB*

- Developed a real-time video analytics pipeline using OpenCV, PyTorch, and FFMPEG for automated object/event detection and logging.
- Served model inference through a FastAPI endpoint and logged detection events with timestamps to MongoDB.
- Built a live analytics dashboard in React surfacing detection trends and threshold-based alerts.

EDUCATION

B.E. - Computer Science and Engineering

VELS Institute of Science and Technology, Chennai | 2022

CERTIFICATION

Python Full Stack Development - IATT Technologies | 2026
